- Producing other wooden products, producing handicrafts from bamboo, straw and plaiting material;
- Making beds, wardrobes, tables, chairs; and
- Other activities.

2. ACCOUNTING POLLICIES

2.1. Fiscal year and accounting currency

The Corporation's fiscal year applicable for the preparation of its separate financial statements starts on 1 January and ends on 31 December.

The separate financial statements are prepared in Vietnam Dong which is also the Corporation's accounting currency.

2.2. Accounting standards and system

Accounting pollicies

The separate financial statements of the Corporation are expressed in accordance with Vietnamese Enterprise Accounting System as per Circular 200/2014/TT-BTC issued by the Ministry of Finance.

Statement on Compliance with Accounting Standard

The separate financial statements of the Corporation, which are expressed in Vietnam dong ("VND") in accordance with Vietnamese Enterprise Accounting System and Vietnamese Accounting Standards issued by the Ministry of Finance as per:

Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);
Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);
Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);
Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and
Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying separate financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the financial position and the results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

2.3. Basis of preparation

Basis of preparation applied for the financial statements of the Head office of the Corporation and its branches

Financial statements are prepared on the cost principle.

The separate financial statements are prepared on the basis of summarizing the transactions and operations that arise and are recorded in the accounting system of the Head office of the Corporation and its branches.

In the separate financial statements of the Corporation, internal transactions and internal balances related to assets, capital, receivables and payables have been eliminated.

2.4 Cash and cash equivalents

Cash includes cash on hand, demand deposits, monetary gold used for value storage purposes, excluding gold classified as inventories used as raw materials for the production of products or goods for sale.

Cash equivalents are short-term investments with a recovery period of no more than 03 months from the investment date, are highly liquid, can be easily converted into known amounts of cash and are subject to an insignificant risk of conversion into cash.

2.5 Financial investments

Held-to-maturity investments include: Term bank deposits (including treasury bills and promissory notes), bonds, preference shares that the issuer is required to repurchase at a certain time in the future, and loans held to maturity for the purpose of earning periodic interest and other held-to-maturity investments.

Financial investments in Subsidiaries and Associates before Vietnam Forestry Corporation transformed into a joint stock company were revalued according to the provisions of Decree 59/2011/ND-CP dated July 18, 2011 of the Government on transforming 100% state-owned enterprises into joint stock companies and Decree 116/2015/ND-CP dated November 11, 2015 of the Government amending and supplementing a number of articles of Decree 59/2011/ND-CP.

2.6 Receivables

Receivables are presented in the separate financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables of the Corporation and dependent accounting units at the separate balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expenses in the separate income statement. When bad debts are determined as unrecoverable and accountant writes off those bad debts, the differences between the provision for doubtful receivables previously made and historical cost of receivables are included in the separate income statement.

2.4 Financial instruments

Initial record

Financial assets

The Corporation's financial assets include cash and cash equivalents, customer receivables and other receivables, loans, short-term and long-term investments. At the time of initial recognition, financial assets are determined according to the purchase price/issuance cost plus other expenses directly related to the purchase and issuance of such financial assets.

Financial payable debt

The Corporation's financial liabilities include loans, seller payables and other payables, and expenses payable. At the time of initial recognition, financial liabilities are determined according to the issuance price plus expenses directly related to the issuance of such financial liabilities.

The value after the initial record

Currently, there are no specific regulations on the revaluation of financial instruments after initial recognition.

2.5 Convert financial statements prepared in foreign currency to Vietnam Dong

The using of exchange rate in converting financial statements prepared in foreign currency to Vietnam Dong complies with the rule: The exchange rate at the end of the period is used for converting assets, liabilities; the exchange rate at the date of capital contribution is used for converting owner's equity and the average exchange rate in the period is used for converting the income statements and cash flow statement.

2.6 Foreign currency transactions

Transactions in currencies other than the Corporation's reporting currency (VND) are recorded at the actual transaction exchange rates at transaction dates which

- Transactions resulting in receivables are recorded at the buying exchange rates of the commercial banks designated for collection;
- Transactions resulting in liabilities are recorded at the selling exchange rates of the commercial banks designated for payment;
- Capital contributions are recorded at the buying exchange rates of the commercial banks designated for capital contribution; and;
- Payments for assets or expenses without liabilities initially being recognised is recorded at the buying exchange rates of the commercial banks that process these payments.

At the end of the year, monetary balances denominated in foreign currencies are translated at the actual exchange rates at the separate balance sheet date

- Monetary assets are translated at buying exchange rate of the commercial bank where the Corporation conducts transactions regularly; and
- Monetary liabilities are translated at selling exchange rate of the commercial bank where the Corporation conducts transactions regularly.

All foreign exchange differences incurred are taken to the separate income statement.

2.7 Inventories

Inventories are measured at their historical costs. The cost of inventories comprise costs of purchase, costs of conversion (including raw materials, direct labor cost, other directly related cost, manufacturing general overheads allocated based on the normal operating capacity) incurred in bringing the inventories to their present location and condition.

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value. Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The perpetual method is used to record inventories at the end of the period.

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the Corporation, based on appropriate evidence of impairment available at the balance sheet date.

2.8 Fixed assets

Tangible fixed assets and intangible fixed assets are recorded at original cost. During use, tangible fixed assets and intangible fixed assets are recorded at original cost, accumulated depreciation and residual value.

Leased fixed assets are initially recorded at fair value or present value of minimum lease payments (excluding VAT) and initial direct costs incurred in connection with the leased fixed assets. During use, leased fixed assets are recorded at original cost, accumulated depreciation and residual value.

Depreciation of tangible fixed assets and amortisation of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

- Buildings and structures	05 - 37 years
- Machinery and equipment	07 - 11 years
- Means of transportation	06 - 10 years
- Office equipment	03 - 07 years
- Land use rights	50 years
- Computer software	05 years

Investment properties are stated at cost including transaction costs less accumulated amortisation.

Properties held for a view to sale are classified as inventories and not subject to the depreciation.

- Buildings	10 - 25 years
- Land use rights	05 - 15 years

2.9 Prepaid expenses

Expenses incurred related to the results of production and business activities of many accounting periods are accounted for in advance costs to be gradually allocated to the operating results in the following accounting periods.

The calculation and allocation of long-term prepaid expenses to production and business costs for each accounting period is based on the nature and level of each type of cost to choose a reasonable allocation method and criteria. Advance costs are gradually allocated to production and business costs according to the straight-line method.

Goodwill arise when the equitization of State-owned enterprises is gradually allocated for a maximum of no more than 10 years since The company officially operates under the joint stock company model.

2.10 Payables

The debts to be paid are according to the term to be paid, the object to be paid, the original currency to be paid and other factors according to the management needs of the Company.

2.11 Loans and finance leases

The value of the finance lease liability is the total amount payable calculated by the present value of the minimum lease payments or the fair value of the leased. Loans and financial lease liabilities are tracked by each lending entity, each loan agreement and the repayment term of the loans and financial lease liabilities. In case of loans and liabilities in foreign currency, detailed tracking is performed in the original currency.

2.12 Borrowing costs

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds, except for the extent that they are capitalised as explained in the following paragraph. Borrowing costs are recorded as expense during the year in which they are incurred, except to the extent that they are capitalised as explained in the following paragraph.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily take a substantial year of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset.

2.13 Payables and accruals

Payables for goods and services received from sellers or provided to buyers during the reporting period but not actually paid are recorded in production and business expenses of the reporting period.

The recording of payable expenses into production and business expenses in the period is carried out according to the principle of matching between revenue and expenses incurred in the period. The payable expenses will be settled with the actual expenses incurred. The difference between the provision and the actual expenses will be reversed.

2.14 Provisions for payables

Provisions are only recognized when the following conditions are satisfied:

- The enterprise has a present obligation (legal or constructive) as a result of a past event;
- It is probable that an outflow of economic benefits will be required to settle the obligation;
- A reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the expenditure required to settle the present obligation at the end of the reporting period.

Only expenses related to the originally established provision for payables are offset against that provision for payables.

The provision for payables is recorded in the production and business expenses of the accounting period. The difference between the amount of provision for payables established in the previous accounting period that is not fully used and the amount of provision for payables established in the reporting period is reversed and recorded as a reduction in production and business expenses in the period, except for the larger difference of the provision for payables for construction warranty, which is reversed and recorded as other income in the period.

2.15 Unearned revenue:

Unearned revenue includes revenue received in advance such as: amount that customers have paid in advance for one or more accounting periods on property leasing, interest received before lending capital or buying debt instruments and other unrealized revenue such as: the difference between the selling price of deferred goods, installment payment according to the commitment and the price bPay immediately, the revenue corresponds to the value of goods, services or numbers that must be discounted to customers in the traditional customer program...

Unearned revenue is transferred to Sales and Service Revenue or Financial Activity Revenue at the amount determined in accordance with each accounting period.

2.16 Revenue recognition

Sale of goods

Sales revenue is recognized when all of the following conditions are met:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer
- The Corporation no longer holds the right to manage the goods as the owner of the goods or the right to control the goods;
- Revenue is determined with relative certainty
- The Corporation has obtained or will obtain economic benefits from the sale transaction;
- Identify costs associated with sales transactions

Rendering of services

Revenue from rendering of services is recorded when the followings conditions are met:

- Revenue is determined relatively with certainty;
- Able to obtain economic benefits from the transaction of providing that service;
- Determine the part of the work completed on the date of the Balance Sheet;
- Determine the costs incurred for the transaction and the cost to complete the transaction to provide that service.

The part of the completed service delivery work is determined according to the completed work evaluation method.

Finance income

Income arising from interest, dividends, divided profits and other finance income is recorded when the following two (2) conditions are satisfied simultaneously:

- Able to obtain economic benefits from that transaction;
- Revenue is determined relatively firmly.

Dividends and divided profits are recorded when the Corporation is entitled to receive dividends or is entitled to receive profits from capital contribution.

2.17 Sale deductions

Deductions from sales and service arising in the year include: Trade discounts, discounts on sales and returned goods.

Commercial discounts, discounts on goods sold, returned goods that incurred in the same period with the consumption of products, goods and services is

2.18 Finance expenses:

Finance expenses include:

- Expenses or related lossesN to financial investment activities;
- The cost of borrowing capital;
- Losses due to liquidation, short-term securities transfer, securities transaction costs;
- Provision for investment losses in other units, losses incurred when selling foreign currencies, exchange rate losses...

The above amounts are recorded according to the total amount incurred in the quarter, not offset against the revenue from financial activities.

2.19 Corporate income tax

Current income tax and Deferred tax

Current corporate income tax expense is determined based on taxable income in the period and corporate income tax rate in the current accounting period.

(ii) This is the "Constructing, exploiting and trading of mixed-use, high-class apartment building" project at No. 55, 430 Van Phuc Street, Ha Dong, Hanoi according to the Investment cooperation contract No. 26/2011/HDHDT between the Corporation and Song Da 1.01 JSC dated 20 January 2011. Under this agreement, the Corporation will contribute the land and assets on the land to the other party who will carry out project development, and the Corporation will receive 3,195 m² of apartment floor area of this project (including 95 m² of the floor area given to the Corporation as a delay penalty). The project is currently temporarily suspended. On 4 September 2018, Vietnam Public Joint Stock Commercial Bank – PVcomBank sent Notice No. 9256/PVB-QL&TCTTS to Song Da 1.01 JSC about the seizure of collateral assets, which are the project's remaining assets including unsold/unleased properties (including 3,195 m² of apartments assigned to the Corporation) and rights to receivables from sold/leased properties. According to the Court's decision, Song Da 1.01 JSC agreed and committed to pay to the Corporation with the converted amount corresponding to the assets to be handed over of VND 63.9 billion and committed to perform other agreements agreed by two parties according to Decision to recognize the agreement of the involved parties No 10/2020/QDST - KDTM dated 26 May 2020 of the People's Court of Ha Dong District, Hanoi. The Corporation is dealing with relevant parties and the authorities to claim its interests in this project. The Corporation has made provision for this long-term work in progress, based on the loss estimated by the management in compliance with current regulations
